

Gunnison Valley RTA

Policy regarding when to run extra buses:

The Gunnison Valley Transportation Authority (RTA) would like to ensure that as many passengers as possible are carried on its transit system while maintaining fiscal responsibility. To achieve this goal, the RTA authorizes and encourages its provider to run additional vehicles when possible under the following conditions:

- 1) When the regularly scheduled bus is filled to capacity; and
- 2) when there are at least ten people being left behind at bus stops; and
- 3) when provider is able to provide a backup vehicle of sufficient size to carry the remaining passengers within twenty minutes; and
- 4) when provider is able to provide a qualified driver available to run the trip; and
- 5) when the driver of the regularly scheduled bus is able to notify the waiting passengers that the backup bus will be arriving shortly.
